

## weber.floor 4919

### PVC coloured chips

#### Coloured chips for decorative design of reactive resin floor coatings

---

##### Fields of application

---

For decoration of smooth (without silica sand on top) **weber.floor** floor coatings based on epoxy or polyurethane resin.

---

##### Description

---

weber.floor 4919 are factory-mixed colored chips based on polyvinyl acetate or acrylate.

---

##### Main features

---

- multi-use
- decorative
- non-yellowing
- diameter 1 or 3 mm
- available in various RAL colours

---

##### Quality control

---

weber.floor 4919 is subject to a regular quality control by self-monitoring.

---

##### Working instructions

---

- The chips are sprinkled by hand onto freshly applied reactive resin-based coatings and sealers, for ex. weber.floor 4736, 4740, 4741, 4753 and weber.tec 790/791.
- Spiked shoes must be worn during the application.
- If the chips are blown in with compressed air, wear suitable protective goggles.

---
