

## weber.prim pluscalc

plusclac primer

Acrylic bonding primer for weber pluscalc interior plasters

### Product profile

---

- for indoor use
- wall, ceiling
- new construction, renovation

### Product advantages

---

- ready-to-use
- contains silica sand
- blue pigmented

### Product description

---

**weber.prim pluscalc** is a factory-produced, solvent-free, light blue pigmented, alkali-resistant, silica sand-containing bonding primer.

### Fields of application

---

**weber.prim pluscalc** is a bonding primer for use with **weber pluscalc** interior plasters on smooth, dense and low-porosity substrates, such as concrete or old brick.

### Product features

---

- ready-to-use
- contains silica sand
- provides an excellent bonding
- solvent-free
- blue pigmented

### Consumption / yield

---

depending on substrate approx. 0.25 l/m<sup>2</sup>

### Storage

---

Shelf life min. 12 months  
Storage conditions In the original unopened packaging, frost-free and away from direct sunlight (at temperatures between + 5 to + 30 °C).

### Application

---

#### Surface preparation

- The surface must be dry (with a residual moisture content of less than < 3%), solid and free from dust, loose particles and release agents (e.g. formwork oil).

## weber.prim pluscalc

plusclac primer

### Application

- The temperature of the air and substrate must not be below +5 °C or above +30 °C.
- After thorough stirring, apply **weber.prim pluscalc** undiluted over the entire surface using a lambskin roller, brush or appropriate spraying tool.
- Ensure that the bonding primer layer has dried sufficiently before applying subsequent products.

### General notes

Protect any adjacent parts of the building that should not be primed in case of splashes. Thoroughly clean tools with water after use.

**weber.prim pluscalc** is subject to regular quality control through self-monitoring.

### Packaging units

Type	Unit	PU
bucket	15 litre	24 buckets / palett
